Dear SPONSER

my name is PASSIANY L. ANITER I WAS born in the year 1992. I live at ole-POLAS area I WAS taken to nursery school in 1999. my Parents supported me up to class eight when I was in class eight my father he told me that he can't support me any more to go to secondary school the didn't love my mother because ~~my mother~~ ~~because~~ he had other two wives whom he loved most.

When I completed my primary education my father told my mother I want this girl to be marriage because don't have money for her to join a secondary school my mother did not agree with him.

my father had three wives in general and my mother was the most hated one. I don't understand why he married her to my point of view may be he married her to be its animal keeper since when we are young up to this time my brother become big enough to be able to look after the animals at holidays there was this ~~my~~ only time my mother stopped looking after the animals but all others time she is the one doing that.

my father had has 21 children 9 boys and 12 girls. my mother had eight children. Those who had completed school had been supported by other organization in paying school fees. for example the girls their had completed education discovery I finished my ~~my~~ class eight exams last year and did not go to

Secondary school because my father can sell a cow for my education I would like and even waking get a good job. I like school very much. Even now when I start imagining I am not in school tears tell out of my eyes. My father hurted me alot when use refuse to take me to secondary.

My father is not poor person but he is against the girl child education I believe. one day one time I would be in school and have also high hope of joining to a secondary school next year.

Since I was born I have never seen my father bringing home any food it is only my mother struggles for our food and clothes too. My mother use to go to shamba and dig almost the whole day after their she fetches fire wood and water took some milk to the hotel so as to get some money to buy soap and others house hold requirements.

things like shoes I started wearing them when I was big enough to go for paying jobs at our neighbour shamba. I have no more may God bless you.

You faithfully

PASSIANY L. ANITER
