Dear Sponsor

I hereby kindly request for a scholarship from you. This is because my parents have a weak financial standing. This has led me to lack necessary requirement to help me concentrate well in my learning. Some time I lacked uniform, food and spend much time going back home to bring money. I may only do exams when my mother got some money from the selling of vegetable.

The money my father got spend only for drinking alcohol and chewing mrua. Despite of all this problems, I was able to sit for my year 2008 KCPE and luckily, I scored 305 marks being the second pupil in my school.

Then my father wanted to challenge and trick me so that I would become a village person loitering here and there. I used to make decision of my own and there I decided to repeat standard eight with a hope of scoring higher marks than those I scored.

I granted education scholarship, I promise that I will work hard and meet the financial needs of my younger sisters and brother. I am looking forward for a positive response

Thank in advance
Yours faithfully

SAIRONUA R. EMMANUEL
